BACK BANDS

Backbands are used with casings to provide added detail and thickness. Added thickness is needed when wall treatments like wainscoting and picture frame paneling are applied to adjoining walls. Specify rabbet size when ordering. (See illustration on page 23).

DOOR / WINDOW CROWNS

Door/window crowns are used with parting beads, decorative trims, dentil and flat stock to make door/window mantels. (See illustration B on page 28).

Door/window crowns can be used to crown cabinetry and furniture. Specify rabbet size when ordering door/window crowns.
